

3

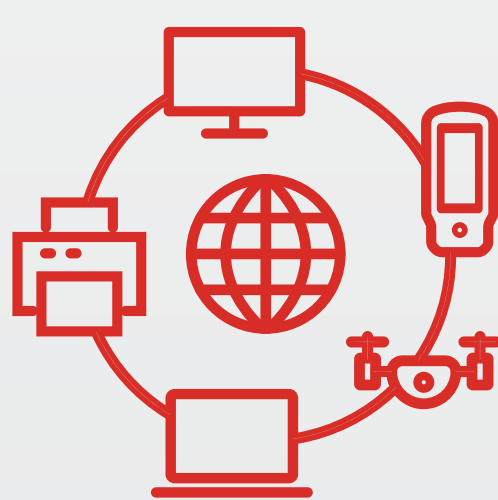

Things

Changing

IT Forever

1

Explosive Growth of Edge

41.6 billion connected devices at the edge by 2025 will generate 79.4 zettabytes (ZB) of data. IT Teams need to ensure all these devices and data are efficiently discovered, managed, and secured.ⁱ

2

Employees Working Anywhere, Anytime

56% of workforce positions are compatible with remote work. IT Teams need to support multiple generations in the workforce, each with rising expectations.ⁱⁱ

3

Cyber Attacks Targeting Remote Workers

30,000% increase in phishing, website, and malware attacks targeting remote users. IT Teams must mitigate risks with early intervention and continuous vulnerability management.ⁱⁱⁱ

Ivanti Neurons is the hyper-automation platform you need to transform your enterprise and mitigate the complexity of these IT challenges.
