

# Ivanti Unified IT Enterprise License Agreement.

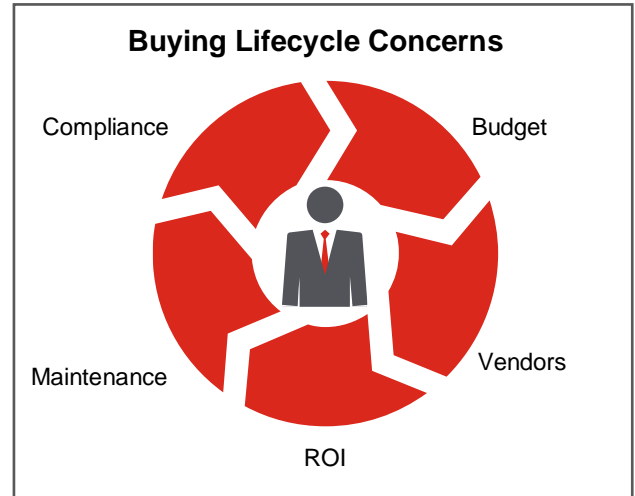

The Ivanti® Enterprise License Agreement (ELA) is an innovative licensing vehicle for enterprise-level customers. Now organizations can take advantage of Ivanti's full portfolio to unify their IT and deploy solutions that match their business initiatives—without spinning up a new procurement cycle or worrying about where to find budget for each initiative.

## Minimize Vendor Fatigue with the Right Partner

Leveraging multiple vendors means you must cope with different buying processes, maintenance programs, support methods, and licensing agreements—each with its own compliance issues. You can give in and let vendors rule your life. Or, you can team up with a partner that helps you be strategic about your IT while saving you time and money.

## Relax a Little—The Rules Are Now in Your Favor

You know about true-ups—they're a pain, right? What if you were licensed automatically for 20 percent more than what you're paying for? We call it "True-Forward." This means at the end of each year we reset your license count to your new amount without any back-charges—unless, of course, you go well beyond your added 20 percent. True-Forward would certainly reduce a lot of licensing headaches, wouldn't it?

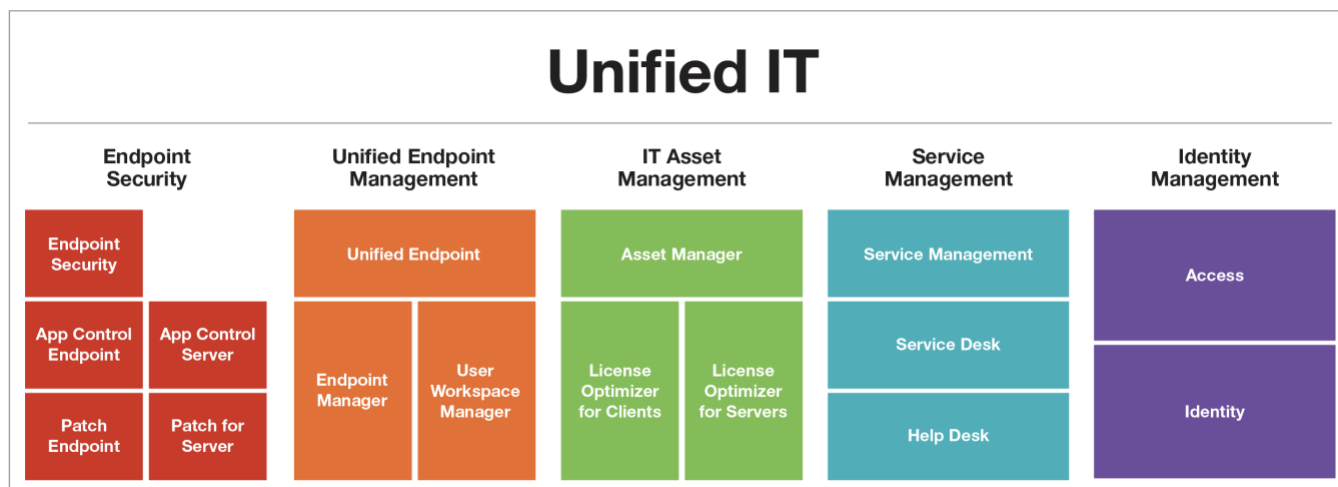

## Revel in Your Discounts

You have two choices of ELA: either a **Pick 2** or the whole **Unified IT**, which includes all the primary solutions from five product disciplines.

**Unified IT:** Get all five of the Ivanti product disciplines for roughly the same price of a single major product—that's right, a single product, not a product discipline. The ELA starts at 1,000 users; however, additional discounts apply at higher user volumes of 5,000, 10,000, and beyond.

**Pick 2:** Choose any two product disciplines and you get all the primary products within those disciplines.

## ELA Details at a Glance

Description	Ivanti ELA
<b>License</b>	User-based subscription
<b>Minimum User Count</b>	1,000 Users
<b>Term</b>	2-3 Years
<b>Delivery Model</b>	On-premises = standard price <b>or</b> Cloud = standard + hosting price
<b>True-Up</b>	True-Forward + 20%
<b>Price Protection</b>	For contract term
<b>Renewal</b>	Maximum of 5% annual—applied at renewal

## Pick and Choose to Solve Business Challenges

Once your initiatives get the green light, go for it! You have what's needed to make it happen with the Unified IT ELA. You'll also find most projects will get the green light faster, because there won't be the same budgeting issues. Here are just a few solutions you can deploy that leverage the benefits of the ELA:

- Onboarding and Offboarding** (Unified IT) – Automated provisioning and de-provisioning of devices, security rights, and services.
- Self-Service IT** (Unified IT) – All services, knowledge, software, and more available through an end-user portal.
- Unified IT Dashboards** (Unified IT) – Dashboards connected to all Ivanti and top non-Ivanti vendor data.

- Automated Isolation and Remediation** (Unified IT) – Accelerated security-incident resolution.
- Windows 10 Migration and Rollout Updates** (Pick 2) – Migrate to and manage the insane cadence of updates.
- Operational Compliance** (Pick 2) – Uplift the level of compliance for security and IT assets to mitigate risk.
