Velocity Web App Migration

Easily deploy SAP, Oracle, or other web apps to the latest generation of mobile computers with Velocity, powered by Wavelink.

Accelerate Data Capture

Benefit from advanced control of device-specific barcode scanning parameters

Maintain User Experience

Preserve worker familiarity by easily porting web apps from Naurtech CETerm or Wavelink Industrial Browser

Boost Productivity

Complete tasks faster with powerful scripting and automation of redundant tasks

Increase Accuracy

Reduce data entry errors by displaying only keys that make sense for a given field

Minimize Risk

Embrace next generation mobile devices with the stability of accessing existing, trusted enterprise apps

Enable Multi-tasking

Run multiple web sessions, and even simultaneously connect to mainframe apps

Velocity delivers the one platform for deploying all your business apps across mobile hardware solutions.
